

Estate Management

SAC has been actively involved in the management of farms and estates for over 50 years. Complete management and administrative packages can be tailored to individual requirements. Accredited consultants can manage land on a strategic or operational 'day-to-day' basis, depending upon the landowner's requirements. SAC consultants are experienced in developing business plans, preparing and implementing cropping and stocking policies, optimising market returns and recruiting and managing labour.

Trained administrative support staff can keep the financial and physical records for the business, prepare VAT returns, and complete subsidy applications and claim forms.

Specifically SAC consultants and administrative support staff can:

- Maintain all financial, management and statutory records, including PAYE, VAT, monthly financial statements and all SGRPID requirements.
- Prepare business plans, cash flows and budgets.
- Develop cropping and fertiliser strategies, which meet cross compliance regulations.
- Recruit and organise labour and contractors.
- Market crops, livestock and other outputs to maximise returns.
- Identify and develop diversified income streams to maximise business potential.
- Set up and operate Contract Farming Agreements.
- Manage any woodland and game resources and implement policies to maximise environmental benefits.

Accredited SAC consultants can manage farms and estates on behalf of owners.

For further information contact your local office.
